

# Do you need more time?

***If you had an extra 10 hours a week, how much more money would you earn?***

**Are there key marketing and/or sales actions which you do not get done, causing you to have a roller coaster effect in your sales?**

**Have you ever thought  
of contracting with  
a VA - Virtual Assistant?**

*What can a VA do for you?*

Marketing

Pre-Sales

Sales

Servicing

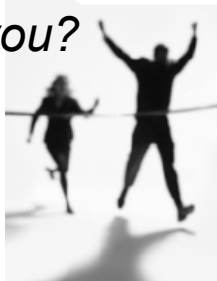

Client For Life

Hiring - Training - Mentoring

Community/Business Partnerships

Systems Development - Web Development

...move your business forward!

VIRTUAL ASSISTANTS Are Certified In:

- ◆ 5/30 Solution Grid
- ◆ Personality Masteries
- ◆ MCAT
- ◆ BOS (Business Operating Systems)
- ◆ And more!

**Many times when someone thinks of a VA, they think of someone just returning their calls or doing administrative work. While that is true with many VA's, it's not the case with the few who graduate (the program is so intensive that only 29% actually graduate from the program) from the intensive certification program.**

**PASSION and PRIORITIES**  
"I don't know of anyone who has extra time. It comes down to PASSION and PRIORITIES. If there is no extra time in an owner's capacity, how does he finish all that needs to be done? A big advantage of a Virtual Assistant is that you don't have to hire or train a new employee. Ramp-up time is so much faster."  
-Mike Ratchford - Right PATH Marketing, LLC

"I am really impressed with the VA system! It truly is the most amazing system I have ever seen...I'm always so busy that it's been extremely hard for me to maintain consistency in building professional referral sources. It just makes good business sense for me to use VA's to develop any professional referral source...I was shocked at how easy it was for me and at the minimal amount of work that I had to complete. My VA team did almost all the work for me, and I really like the finished product."  
-Bob Donnelly Home Express Mortgage

**I was shocked at how easy it was for me**

**"A Virtual Assistant will improve the systems and processes of an organization. They are even able to put systems in place. I don't see why anyone wouldn't want to use the services of a Virtual Assistant."**

**-Tom Kunz, Past President of CENTURY 21**
